

Halloween Excitement

Kindercottage

PLAYGROUNDS, HALLOWEEN, DENTIST VISITS AND COVID SHOTS. WE'RE BUSY BEES!!!

Hopefully many of you have received a letter from UNI-PRES Kindercottage telling you of our new campaign to re-surface and re-furnish our two playgrounds. We hope to start a planning committee soon so that our new playgrounds will be ready for use in the spring of 2022. One playground will be for those two years old and younger; the other will be for our three year olds and older. We appreciate your support of this project to give our children an outdoor space to play and to experience joy. The materials for this project will cost around \$15,000 and in addition, we will need carpenters to assemble the equipment. Any financial help you can send us for our playground project will be greatly appreciated.

Of course we celebrated Halloween! The children came in costumes and we are grateful to the Youth Group of O'Fallon United Church of Christ for providing treat bags for the children.

What else is happening at Uni-Pres Kindercottage? Well it's October and that's when our dentist often comes to visit us and look at our teeth. This is the first time that some of our 13 to 23 month old children have seen a dentist.

And we held a COVID vaccination clinic for the community on October 25th. Another clinic will be held on November 12. We've had lots of activity at Kindercottage!
